

## *Let's Spread Some Christmas Cheer*

*As days grow shorter and the temperature falls,  
Christmas grows closer and you start to deck the halls.*

*While you hang your stockings and trim your tree this year  
Why not take some time to spread some Christmas cheer.*

*We were sneaky and delivered this special holiday treat,  
Hopefully you will pass it on to someone on your street.*

*You can make some treats or get them from the store,  
Place them in a festive container and sneak them to another's door.*

*Make sure you copy this poem and the Santa picture too,  
And leave them with your treats so they know what to do.*

*So all your neighbors know you have been visited already,  
Make sure you hang the Santa picture in plain sight,  
And we hope you have a Christmas that is merry and bright!*
